

DAY 6

NAME: Nandhini V

DATE: 15-07-2025

Tasks:

Exercise 1:

Create a Gallery for the Royal Challengers Bangalore Team to display all the players available in the team. Arrange all the images in a grid view using table with 3 column and 3 rows. Inside each cell create <div> element to hold both the image and the player name with appropriate id attribute. The images are displayed using tag.

Create 6 different html page for each player with their image and description as shown in the below screenshot.

Provide hyperlinks to both the image and player name to the corresponding player page from your image gallery.

UI Constraints:

Each div element with the specified id should contain a .

Anchor tag should be used for each div, which on clicking displays a new page with details of the particular player.

font-style: italic

font-size-adjust: 0.50

Code:

```
<!DOCTYPE html>
<html>
<head>
  <title>Royal Challengers Bangalore Team Gallery</title>
</head>
<body>
  <h1>Royal Challengers Bangalore Team Gallery</h1>

  <table border="1" cellpadding="10" cellspacing="0">
    <tr>
```

```

        <td>
            <div id="Kohli">
                <a href="virat-kohli.html">
                    
                    <br>
                    <font style="font-style: italic; font-size-adjust:
0.50;">Virat Kohli</font>
                </a>
            </div>
        </td>
        <td>
            <div id="Villiers">
                <a href="abd.html">
                    
                    <br>
                    <font style="font-style: italic; font-size-adjust:
0.50;">AB de Villiers</font>
                </a>
            </div>
        </td>
        <td>
            <div id="Sachin">
                <a href="sachin.html">
                    
                    <br>
                    <font style="font-style: italic; font-size-adjust:
0.50;">Sachin Baby</font>
                </a>
            </div>
        </td>
    </tr>
    <tr>
        <td>
            <div id="Travis">

```

```

        <a href="travis.html">
            
            <br>

Sarfaraz Khan

Role: Batsman

Batting Style: Right Handed Bat

Bowling Style: Right-arm medium

Exercise 2:

The start of the tenth edition of IPL is already announced and no doubt we can witness cricket going to the whole new level. The IPL Selection Committee members have arranged for the Player Auctions in the near months and are in full swing working towards it. You are given a task to create an application form for the players to apply for the auctions to contest in the IPL, as shown in the given screenshot. Have the content and look and feel of the page as shown in the screenshot, use html table for better formatting.

Have the HTML file name as "index.html".

Code:

```
<html>

  <head>

    <title>Application form</title>

  </head>

  <body>

    <h2>Player Details</h2>

    <form>

      Name*<input type="text" name="name" required
placeholder="Enter your name"><br><br>

      DOB*<input type="date" name="dob" required><br><br>

      Age*<input type="number" name="age" required
placeholder="Enter your age"><br><br>

      Email Id*<input type="email" name="email" required
placeholder="abc12@xyz.com"><br><br>

      Country*<select name="country" required>

        <option>India</option>

        <option>USA</option>
```

```

        <option>UK</option>

    </select><br><br>

    Skill* <input type="checkbox" name="skill">Batting

           <input type="checkbox" name="skill">Bowling<br><br>

    Bat style<input type="radio" name="bat">Right Handed

           <input type="radio" name="bat">Left Handed<br><br>

    Bowl style<input type="radio" name="bat">Right Handed

           <input type="radio" name="bat">Left Handed<br><br>

    Matches*<input type="number" name="matches" required
placeholder="Matches Played"><br><br>

    Runs*<input type="number" name="runs" required
placeholder="Total runs scored"><br><br>

    Wickets*<input type="number" name="wickets" required
placeholder="Wickets"><br><br>

    Achievements<textarea rows="4" cols="30" placeholder="Your
Achievements in Cricket"></textarea><br><br>

    <input type="submit" name="Submit">

    <input type="reset" name="Reset">

</form>

</body>

</html>

```

Exercise 3:

Create favorite list of websites into links and unordered list as shown in the screen below. When we click on the

favorite link the respective page should open in a new tab.

. Google

. Facebook

. w3schools

Add logos for the sites

Code:

```
<!DOCTYPE html>

<html>

  <head>

    <title>Favorite Websites</title>

  </head>

  <body>

    <h1>My Favorite Websites</h1>

    <h2>Unordered List with Links</h2>

    <ul>

      <li>

        <a href="https://www.google.com" target="_blank">

    Google

</a>

</li>

<li>

    <a href="https://www.facebook.com" target="_blank">

        Facebook

    </a>

</li>

<li>

    <a href="https://www.w3schools.com" target="_blank">

    W3Schools

</a>

</li>

</ul>

</body>

</html>
```

Screenshot:

My Favorite Websites

Unordered List with Links

-  [Google](#)
-  [Facebook](#)
-  [W3Schools](#)

Exercise 4:

Implement the page in below two different ways:

Show the links one line after the other using DIV

Show the links adjacent to each other using SPAN

logo logo logo

Google Facebook w3schools

Code:

```
<!DOCTYPE html>

<html>

<head>

    <title>Favorite Websites</title>

</head>

<body>

    <h2>Using DIV - One Line After Another</h2>

    <div>

        <a href="https://www.google.com" target="_blank">

            Google

        </a>

    </div>

    <div>

        <a href="https://www.facebook.com" target="_blank">

            Facebook

        </a>

    </div>

    <div>

        <a href="https://www.w3schools.com" target="_blank">
```

[illegible]

```

        <a href="https://www.w3schools.com" target="_blank">

            W3Schools

        </a>

    </span>

</body>

</html>

```

Screenshot:

Using DIV - One Line After Another

Using SPAN - Adjacent to Each Other

Exercise 5:

Create a page student.html showing the regno, name, college, stream and department in the table format. Give table header and footer.

Code:

```
<!DOCTYPE html>

<html>

<head>

    <title>Student Information</title>

</head>

<body>

    <h1>Student Information</h1>

    <table border="1">

        <thead></thead>

        <tr>

            <th>Regno</th>

            <th>Name</th>

            <th>College</th>

            <th>Stream</th>

            <th>Department</th>

        </tr>

        <tr>

            <td>001</td>
```

```
<td>Arjun</td>

<td>GCE</td>

<td>Engineering</td>

<td>CSE</td>

</tr>

<tr>

<td>002</td>

<td>Priya</td>

<td>Anna University</td>

<td>Engineering</td>

<td>ECE</td>

</tr>

<tr>

<td>003</td>

<td>Rajesh</td>

<td>PSG Tech</td>

<td>Engineering</td>

<td>Mechanical</td>

</tr>

<tr>

<td>004</td>

<td>Sneha</td>

<td>CIT</td>
```

```

        <td>Engineering</td>

        <td>IT</td>

    </tr>

    <tr>

        <td colspan="5" align="center">Total Students: 4</td>

    </tr>

    <tfoot></tfoot>

</table>

</body>

</html>

```

Screenshot:

Student Information

Regno	Name	College	Stream	Department
001	Arjun	GCE	Engineering	CSE
002	Priya	Anna University	Engineering	ECE
003	Rajesh	PSG Tech	Engineering	Mechanical
004	Sneha	CIT	Engineering	IT
Total Students: 4
