

DAY 6

NAME: Nandhini V

DATE: 12-08-2025

Task:

Add dob in mini project using code first approach list the audience who booked tickets in the homepage.

Code:

NewMovie.cs

```
using System.ComponentModel;
using System.ComponentModel.DataAnnotations;
```

```
namespace MiniProject.Models
{
    public class NewMovie
    {
        public int Id { get; set; }

        [Required]
        [StringLength(20, MinimumLength = 5)]
        public string Name { get; set; }

        [Required]
        public string Gender { get; set; }

        [Required]
        [Range(5, 60)]
        public int Age { get; set; }

        [Required]
        [DisplayName("Date Of Birth")]
        public DateOnly Dob { get; set; }
    }
}
```

TicketForm.cshtml

```
@model MiniProject.Models.NewMovie
```

```
@{  
    ViewData["Title"] = "Ticket Booking";  
}
```

```
<h2 style="text-align:center;">Enter the details to book tickets</h2><br/><br/>
```

```
<form asp-action="GenerateTicket" method="post">  
    <div class="form-group mb-3">  
        <label asp-for="Name" class="form-label"></label>  
        <input asp-for="Name" class="form-control" />  
        <span asp-validation-for="Name" class="text-danger"></span>  
    </div>  
  
    <div class="form-group mb-3">  
        <label asp-for="Gender" class="form-label"></label>  
        <select asp-for="Gender" class="form-control">  
            <option value="">-- Select Gender --</option>  
            <option value="Male">Male</option>  
            <option value="Female">Female</option>  
        </select>  
        <span asp-validation-for="Gender" class="text-danger"></span>  
    </div>

        <input asp-for="Age" class="form-control" type="number" />  
        <span asp-validation-for="Age" class="text-danger"></span>  
    </div>  
  
    <div class="form-group mb-3">  
        <label asp-for="Dob" class="form-label"></label>  
        <input asp-for="Dob" class="form-control" type="date" />  
        <span asp-validation-for="Dob" class="text-danger"></span>  
    </div>  
  
    <button type="submit" class="btn btn-primary">Save</button>  
</form>
```

```
@section Scripts {  
    @await Html.PartialAsync("_ValidationScriptsPartial")  
}
```

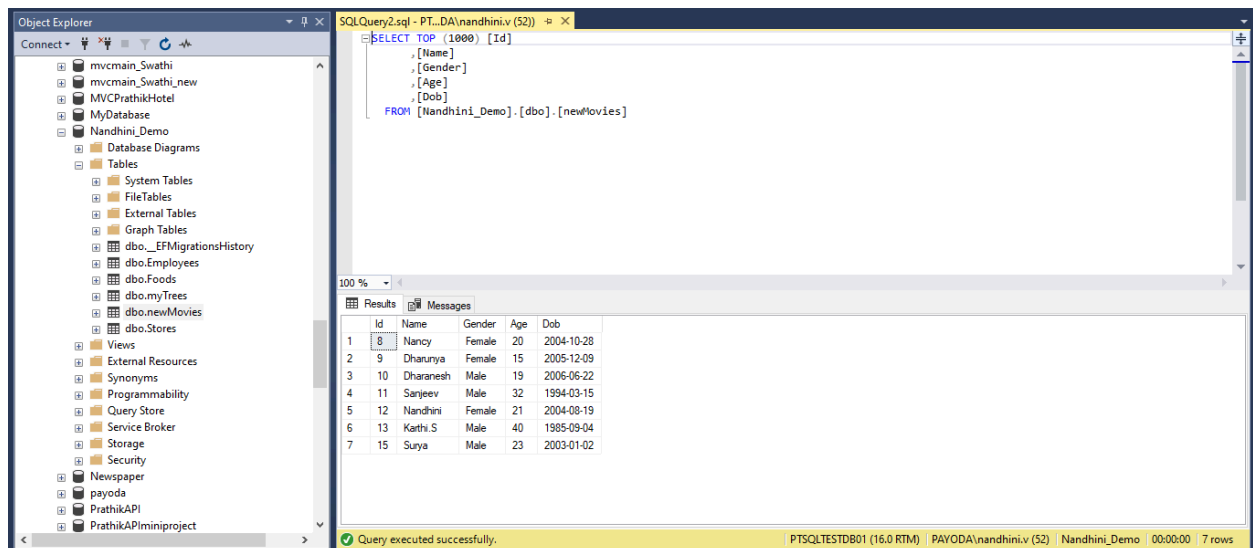

Details.cshtml

```
@{
    ViewData["Title"] = "Audience Details";
}
@model MiniProject.Models.NewMovie

<div class="text-center">
    <h1 class="display-4">Audience Details</h1>
    <br/>
    <br/>
    <b>Name: </b>
    @Model.Name
    <br />
    <br />
    <b>Gender: </b>
    @Model.Gender
    <br />
    <br />
    <b>Age: </b>
    @Model.Age
    <br />
    <br />
    <b>Date of Birth: </b>
    @Model.Dob
    <br />
    <a class="btn btn-primary mt-4" asp-controller="Movie" asp-action="Index">Go Back</a>
</div>
```

Output:

Values in database before adding a record

The screenshot shows the SQL Server Enterprise Manager interface. On the left, the Object Explorer displays the database structure, including tables, views, and security. The central pane shows a SQL query executed against the 'Nandhini_Demo' database. The query is a SELECT statement that retrieves the top 1000 records from the 'newMovies' table, displaying columns: Id, Name, Gender, Age, and Dob. The bottom pane shows the results of the query, which are 7 rows of data.

Id	Name	Gender	Age	Dob
1	Nancy	Female	20	2004-10-28
2	Dharunya	Female	15	2005-12-09
3	Dharanesh	Male	19	2006-06-22
4	Sanjeev	Male	32	1994-03-15
5	Nandhini	Female	21	2004-08-19
6	Karthi.S	Male	40	1985-09-04
7	Surya	Male	23	2003-01-02

Values in database after adding a record

The screenshot shows the SQL Server Enterprise Manager interface. On the left, the Object Explorer displays the database structure, including tables like 'dbo.new#lovies'. The main window shows a SQL query: `SELECT TOP (1000) [Id], [Name], [Gender], [Age], [Dob] FROM [Nandhini_Demo].[dbo].[new#lovies]`. Below the query, the Results pane displays a table with 8 rows of data.

Id	Name	Gender	Age	Dob	
1	8	Nancy	Female	20	2004-10-28
2	9	Dharunya	Female	15	2005-12-09
3	10	Dharanesh	Male	19	2006-06-22
4	11	Sanjeev	Male	32	1994-03-15
5	12	Nandhini	Female	21	2004-08-19
6	13	Karthi.S	Male	40	1985-09-04
7	15	Surya	Male	23	2003-01-02
8	22	Swathi	Female	28	1997-10-12

The status bar at the bottom indicates: "Query executed successfully. PTSQLESTDB01 (16.0 RTM) PAYODA\Nandhini.v (52) Nandhini_Demo 00:00:00 8 rows".

Detail of an audience

The screenshot shows a web application interface for "Movie(Coolie)". The navigation bar includes "Home", "Tickets", and "Privacy". The main heading is "Audience Details". Below this, the details for an audience member are displayed:

- Name:** Swathi
- Gender:** Female
- Age:** 28
- Date of Birth:** 12-10-1997

A blue button labeled "Go Back" is positioned below the details. At the bottom of the page, the footer reads: "© 2025 - MiniProject - [Privacy](#)".
